

STATEMENT OF PURPOSE

RS20985

The purpose of this legislation is to enable a prospective licensed nursing home administrator to begin their required one year administrator-in-training program (internship) before they finish their baccalaureate degree. Many health care administration degrees require an internship as a requirement for graduation. However, the current law does not allow one to begin the AIT until they have finished their degree. These students are then required to complete two separate internships. This legislation will allow them to possibly meet both internship requirements simultaneously.

FISCAL NOTE

No fiscal impact.
